**TracPipe® CounterStrike®**  
Flexible Gas Piping by OmegaFlex.

**Saves time.  
Saves money.**

- Saves up to 75% of installation time
- Bends and conforms by hand
- Pulls gas pipe like electrical wire
- Cuts with a standard stainless steel tube cutter
- No threading or welding needed
- Lightweight and easy to transport
- Unique, patented AutoFlare® fittings require no specialist tools to seal first time, every time
- TracPipe® with its polyethylene cover can be buried directly in the ground
- Manufactured to withstand normal shrinkage and movement to buildings
- Installs faster, easier and safer
- No hot work needed

**Up to 2" size for commercial gas piping.**

**GET CERTIFIED OR RENEW YOUR CERTIFICATION**

TracPipe® CounterStrike® Flexible Gas Piping CounterStrike® CSST Certification

- You will receive your certification card after completing the class and test.
- Limit your liability by learning about new local codes and bonding requirements!
